

WARNING

Important Information on Autocom counterfeit products

WHY TAKE THE RISK?

- 1** You are **risking the lives of many motorists** by using a tool that provides inaccurate and counterfeit information; information that neither have been tested and verified by qualified personnel which in turn causes malfunction of systems in a vehicle. We have confirmed cases where counterfeit products have caused ECUs to be completely damaged thus putting the safety of many road users at risk.
- 2** The **financial implications and bad media** reports of your workshop will be costly.
- 3** You are **jeopardizing the safety** of yourself and your co-workers when using a counterfeit tool. The counterfeit units are not tested nor evaluated for personal safety.
- 4** Illegal software, key generators and patches offered on various marketplaces are known to contain malicious **hidden viruses and trojans**.
- 5** You will certainly have **trouble updating** the counterfeit tool. Even if you believe you have updated your units, you are exposing yourselves to safety, legal and financial implications in due course.
- 6** **No warranty** provided when purchasing counterfeit products as it usually of inferior quality. Buying an original Autocom guarantees you a life time warranty together with a valid license.
- 7** **No support or training** is available. Who do you call for assistance? In most cases, the sites or sales persons cease to function within a short time.
- 8** It is **illegal and a crime** to buy, sell, possess and even to use counterfeit products. You risk potential prosecution or large fines brought against you in the court of law.
- 9** You are **funding organized crime** and ultimately even terrorism by buying counterfeit products.
- 10** You are undermining the **credibility of your workshop** and the entire vehicle repair sector.
